# EFREN MARTINEZ

## SOFTWARE ENGINEER

## OBJECTIVE

I am a driven individual with in-depth knowledge of languages and development tools, looking for a position at a firm focused on growth where I can use my abilities to the company's advantage while also having the opportunity to further my own education.

## RESEARCH UNDERTAKINGS

PROPOSED THERMOSCANNER AND MOTION SENSOR FOR DOG BIRTH MONITORING SYSTEM WITH SMART MOBILE APPLICATION ASSISTANCE  
(2021-2022)

This project will help the pet owners who own a Pomeranian dog breed significantly. This machine will help them during Labor Day, monitor their dog's temperature, and lessen the burden of the dog owner during the parturition of the pregnant dog.

DESIGN SOFTWARE DEVELOPMENT PROJECT:  
DOO DOO  
(2019-2021)

DOO DOO is an e-commerce software developed in C# Visual Studio that provide service for the artist and art lover. The application offers different features such as artist can sell their artwork and take profit from it. Client can hire and buy artwork.
